

Highway Route Controlled Quantity (HRCQ) Training for Drivers

Course Description

This course is designed to provide participants instruction on the DOT FMCSR with specific information regarding the safe transportation of HRCQ Radioactive Materials. Course participants use current copies of applicable regulations to understand the additional hazards and requirements associated with transporting highway route controlled quantities of radioactive materials. This training meets the requirements identified in 49 CFR 397.101.

Materials Provided

Each participant receives relevant excerpts from 49 CFR, student manual, course exercises, and other classroom materials.

Examination

Successful completion is achieved with a passing score of 80% or better on a written exam.

Record Keeping

Successful participants receive a certification stating that the training meets the requirements of 49 CFR 397.101.

Who Should Attend?

Any person who transports a highway route controlled quantity of radioactive material.

Course Duration

4 hours

Retrain Frequency

2 years

Course Topics

- Radioactive Material Hazards
- Labeling Requirements
- Shipping Paper Entries
- Placarding Requirements
- Notification Requirements
- Route Determinations

Prerequisites

*Hazardous Material General Awareness
Transportation Training or equivalent.*
